

## **THE BizTech IT DIFFERENCE**

Founded in 2001 by networking specialist David Erenboim, the vision for BizTech IT was to create an IT company with a heavy focus on customer service and support. Through periods of heavy growth in recent years, BizTech IT has remained true to that vision and today offers its clients the highest levels of care and expertise.

A Melbourne based consultancy and support company with over four hundred clients, BizTech IT is designed to give your business the edge it needs in a crowded marketplace. We do this by providing a complete service that is cost effective and will facilitate increased productivity. We aim to significantly reduce infrastructure downtime allowing your business to maximise its earning potential.

At BizTech IT we understand that your business is unique. With this in mind, our consultants aim to create integrated IT solutions that are tailored specifically to your business' individual requirements. We offer a wide range of superior services including equipment leasing and sales, network support, security solutions, facilities management, web services and much more.

Our consultants' comprehensive knowledge of business systems and all facets of technology ensure a streamlined, creative solution that will take your business to the next level.

## **SERVICES**

- **Network support**

At BizTech IT we specialise in getting your business back on line. With 24 hour access to one of our consultants, your IT solutions are only a phone call away.

- **Facilities Management**

For a simple, cost effective way to keep your IT infrastructure operating at its peak, try our Facilities Management Agreement or FMA. FMA's offer the highest level of service and focus on preventative maintenance to ensure peak performance and minimum downtime so your business can maximise productivity.

- **MailShield - making email safe once more ([www.mailshield.com.au](http://www.mailshield.com.au))**

BizTech IT has recently partnered with MailShield to offer a managed solution to reduce the amount of spam that you receive. MailShield filters your email BEFORE it hits your inbox. It is simple to setup and requires no software on your systems... everything is done on our servers. NO updates to download. NO annoying reminders and best of all a MASSIVE reduction in the amount of SPAM.

- **Security Solutions**

Using Languard we can protect your business from the very real threat of viruses hackers, spam and other electronic pests. The latest in web-based surveillance technology means you can now monitor your business remotely anywhere that has access to the Internet. We also provide network monitoring systems which let you know immediately when your any of your web-based services aren't responding as they should. Languard security will give you peace of mind and ensure the safety and privacy of your network.

- **Web Design**

We specialise in creating functional, fast loading, professional and user friendly sites that accurately represent your business.

- **Web Hosting**

Choose a hosting plan from the BizTech IT range to suit your needs. All plans come with additional services such as free email, statistical reporting and web-based management. We also cater for larger businesses offering entire servers for specific sites depending on size.

- **Procurement**

For all the best brands at the best prices, let BizTech IT find what you need. We can source almost any of your hardware or software requirements from the world's top manufacturers.

- **Business Consulting**

BizTech IT's business consultants offer integrated solutions tailored to suit your business. Talk to us about your vision for the future and together we can make it happen.

- **Equipment Leasing**

Equipment leasing is often a more cost-effective alternative to buying. BizTech IT offer a wide range of Technology Financing Options and our technology refresh programs mean IT obsolescence will be a thing of the past.

- **Cabling Services**

BizTech IT can provide you with all your IT cabling needs from Optic Fibre to cable management and duct systems. Make sure your network is operating at its peak with BizTech IT's cabling services.

- **ADSL Internet**

Experience fast reliable and affordable Internet with BizTech IT and ADSL. Using Australia's premier providers, Westnet, Netspace, IPrimus and Pacific your home or office will have the very best the Internet has to offer

- **Telephone Services**

As part of our commitment to integrated business solutions, BizTech IT now offer a range of telecommunications products for your home or business.
